ORDER

LCN 17/3973, Kerafed Coconut Complex is an HT consumer coming under Electrical Section, Naduvannoor in Electrical Circle Vadakara. As per paper read (1)above, the Executive Engineer, TMR Division, Kannur had informed that as part of a routine inspection in the premises of the above consumer on 12/2/2020 it was detected that the display time in the meter was not accurate and as it will affect the recording of the maximum demand the meter was declared faulty. It was also instructed to bill the consumer for average consumption during the faulty period.

Consequently the Deputy Chief Engineer, Electrical Circle, Vadakara has directed the consumer to replace the faulty meter within two months as per clause Part B 4(d) contained in the Schedule of Tariff and Terms and Conditions for Retail Supply of Electricity 2019. The consumer was issued average bills for the months of February , March, April and May 2020. As the consumer has not replaced the meter within two months of meter becoming faulty, imposition of meter faulty penalty for three months as per Clause 4 (d), has become inevitable.

However, the consumer has submitted a request vide read (2)above, wherein they have submitted that they have already initiated action for the procurement of a new HT meter and due to the sudden outbreak of Covid -19 and consequent lock down imposed, they could not proceed with the action.

The matter was placed before the Full Time Directors as per note read as (3) above.

Having examined the matter, the Full Time Directors meeting held on 18/06/2020 resolved to accord sanction to grant time extension upto 30.06.2020 to LCN 17/3973 for replacing the faulty meter. Further resolved to accord sanction to exempt the consumer from imposition of meter fault penalty if they replace the meter on or before 30.06.2020

Orders are issued accordingly.
